

Glossies, Pizza and Gelato at Dusk

Join us for a delightful and delicious evening of:

- Learning about Glossy Black Cockatoos.
- Try and spot a Glossy during the dusk birdwatching walk on the grounds of Pilliga Pottery.
- Catch up with community members, local farmers, birdo's, and nature enthusiasts over a dinner of woodfire pizza and gelato.

Jayden Gunn from Birdlife Australia, will provide an insightful presentation on the iconic Glossy Black Cockatoo including its key identification features, specific habitat, feed tree requirements, and new nestboxes designed specifically for Glossies. Julie from Pilliga Pottery, an expert and enthusiast on the birds on site, will join us for the bird walk.

Be prepared for the short birdwatching walk by wearing sturdy boots and warm clothing. Bring a notepad/pen, smartphone with your favourite Bird App and binoculars.
