*Kiss the Ground for Regeneration!*

July's Landcare Learning will be a screening of Kiss the Ground. This documentary show that with regenerating the world's soils, we can begin to stabilise Earth's climate, restore lost ecosystems and create abundant food supplies. Using compelling graphics and visuals, along with striking NASA and NOAA footage, the film artfully illustrates how, by drawing down atmospheric carbon, soil is the missing piece of the climate puzzle.

Discussion after the movie will be lead by Wayne Chaffey.

**RSVP to [nell\\_chaffey@yahoo.com](mailto:nell_chaffey@yahoo.com) by Monday 17 July**
